

OBJECTIVES

- Encourage innovation and a culture of commercialisation among stakeholders in the oil and gas (O&G) industry, including OGSE companies.
- Recognise companies and individuals who are at the forefront of innovation to produce products and services that are novel in nature.
- Offer finalists the opportunity to present their innovations to potential investors or buyers, thereby facilitating networking and collaboration within the industry.
- Promote collaboration between academia and the industry to foster innovation for commercialisation and further development of new technologies and ideas.

WHO IS ELIGIBLE

- The company must be a Malaysian owned entity (at least 51%)
- Malaysian proprietary technology is relevant for the oil, gas & energy industry
- Must have a least a working prototype for demonstration (TRL 4 onwards required to be eligible for the grant)
- If commercialised, the product must be less than 5 years in the market
- Intellectual Property Ownership is a plus
- The proposed project has not been submitted to previous editions of the OIA and has not received an existing grant

WINNING PARTICIPANTS BENEFITS

- Fast-track evaluation for the OGSE Development Grant by MPRC
- An opportunity to secure a sponsored space at an international exhibition
- Feature in Annual Innovation Awards Series for 1 year (until September 2024)
- Spotlight as OIA 2023 winner, with technology featured to an estimated 25,000 event visitors

OGSE Innovation Awards

Join us for the 4th edition of the OGSE Innovation Awards (OIA) organised by the The Malaysian Oil, Gas & Energy Services Council (MOGSC) in partnership with Oil & Gas Asia (OGA) and supported by MPRC and MATRADE.

This prestigious award recognises and honours companies and individuals who are leading the way in innovation, sustainability, and Net-zero carbon initiatives in the oil & gas and related industries or academia. OIA is the platform for you to showcase innovative solutions to a regional audience, gain exposure to potential customers and investors, and pitch your ideas to key decision-makers. With the added benefit of being held alongside the exhibition, OIA offers a valuable stage for you to network with visionaries of the industry and potential funders.

All applications will be reviewed by the OIA committee to determine the eligibility of participation.

Top 3 Finalists will be fast-tracked to the MPRC-OGSE Development Grant application.

Nurturing Future Ideas

The OGSE DG is a programme designed by Malaysia Petroleum Resources Corporation (MPRC) under the 12th Malaysia Plan (Rancangan Malaysia Ke-12) to assist and facilitate OGSE SMEs and mid-tier companies to seamlessly move and develop their technology and innovation along the complex stages of the commercialisation process and thereby stepping up their game in the industry.

DEVELOPMENT GRANT PROGRAMME OBJECTIVES

- To support the development of the OGSE companies in increasing their competitiveness in the industry.
- To support new technologies or further develop existing technologies with robust innovation.
- To support the development of new technologies or further develop existing technologies toward the creation of new businesses and generation of economic wealth for industry and nation.
- To encourage local OGSE companies and inventors to capitalise their intellectual works through Intellectual Property (IP) filings/registrations, and acquisition.
- To stimulate growth and increase the capability and capacity of Malaysian technology-based enterprises.

* Eligible companies may apply for
MATRADE Market Development Grant
[MYR 5,000nett]

Don't miss out on this chance to be recognised as a leading innovator in the oil and gas industry. Submit your entry now and join us at the 4th edition of the OGSE Innovation Awards.
