LeadGrab: Scan, Qualify, and Manage your Leads Better

Scan Leads

No more business cards or manual entry. Effortlessly scan and gather complete lead details, including name, email, phone number, location, company, and job title.

Qualify Leads

Define the type of leads or visitors that you have scanned with Lead tagging such as:

- **Lead temperature:** Indicates your lead's interest level
- **Lead type:** Labelling lead's characteristics or demographic
- **Follow up actions:** List the next steps needed for your leads
- **Customize tagging:** Define and organize leads your way

Manage Leads

Organize your leads based on qualification criteria, demographics, or interest level, so you can streamline post-event sales process and plan your next steps.
